

Understand your students' mental health, and help those who need it most

Many students struggle to manage feelings of stress, anxiety, depression, and grief. These facets of mental health affect students' behavior and academic outcomes. Without the proper support and interventions, they can even lead to violence, self-harm, or suicide.

Despite their best intentions, student safeguarding teams are stretched thin. Often supporting hundreds of students each, these DSL's may lack the resources to know for sure which students are suffering and most in need of support.

That's where Securly Aware comes in. Securly Aware is a student safety and wellness solution that provides unprecedented visibility into your students' mental health and wellness. The data provided by Aware can help you understand and meaningfully impact your students' wellness. With Aware, you can:

- Know who's at risk of self-harm, suicide, depression, violence, and bullying
- Proactively support students who demonstrate concerning behaviors
- Gain a clear picture of each student's current wellness level
- Intervene quickly when wellness levels drop
- Respond effectively to student safety concerns

"To be able to catch clues on social media that would enable administrators and teachers to work with parents is absolutely worth everything to us as a community."

Dr. Barbara Nesbitt,

Asst. Superintendent for Technology Services Pickens County School District

How Aware works

Benefits

- Use the resources you're putting towards student wellness effectively
- Identify depression, grief, anxiety, and other mental health issues
- Proactively intervene with your most vulnerable students
- Curb cyberbullying and violence with proactive tools
- Virtually eliminate false positives with our advanced AI
- Centralise and streamline case management

Features

New features to support complete student wellness

Think Twice

- Curb cyberbullying with Think Twice, which prompts students to reconsider before sending hurtful messages.

Responder

- Our battle-tested case management tool — the same tool used every day by the Securly 24 monitoring experts.
- Track a flagged alert from its inception to resolution, and be more effective when responding to alerts.
- Gain detailed case records, which can be invaluable for responding to legal depositions, as well as for training and development of student services staff.

Wellness Levels

- Know each student's emotional state with evidence-based wellness level monitoring, and respond proactively if levels begin to drop.

Wellness Pathways Widget

- When a student's Wellness Level drops, automatically present them with helpful mental health resources.

Comprehensive Scanning of Students' Online Activities

- Google Drive files, OneDrive files, emails, social media, and web searches are scanned to identify indications of suicide, depression, violence, bullying, and nudity.

Flagged Activity Alerts

- Designated staff are alerted via email, and can view all activity in their assigned OUs.

Sentiment Analysis

- Detects the actual sentiment behind posts, even when traditionally flagged keywords are not included.

Email Recall

- Emails containing violence, bullying, and nudity are automatically recalled.

File Quarantine

- Google Drive files containing nudity are automatically quarantined.

At-Risk AI

- At-Risk AI analyses a student's activity history, allowing for a nuanced understanding of flagged events, and automatically assigns a Wellness Level.

Minimal False Positives

- When you're using the longest-learning AI in education, false positives are minimized to reduce alert "noise".

Centralise on a single platform to simplify management

Securly has a suite of other products that work with Aware to do even more. Whether it's student safety, engagement, or anything else, we have you covered. Integrations include:

Get additional context for Aware alerts — and visibility and control over all devices regardless of location — with our industry-leading CIPA-compliant web filter

Gain round-the-clock human-supported analysis of flagged activity notifications and escalated response — before the worst happens

Give parents/caregivers more control and opportunities to get involved in their kids' learning

Focus your student support services where they're needed most

With Securly Aware, you can identify the students who are most at-risk and intervene before the worst happens.

Don't worry about your students' wellness. Know for sure with Aware.
