

Dear Parents and Carers,

Each school across the country has responded to the extreme hot weather according to its own circumstances and building conditions. We have carefully monitored the situation as it has developed.

As you know, we have done everything possible to follow Department for Education guidance and keep the academy open, making sensible adjustments to ensure that as many pupils as possible could attend safely. I am immensely proud of the way both pupils and staff have adapted and managed throughout.

Due to the continued high temperature forecast, the school will close again tomorrow, Friday 26th June 2026 at **1:00pm**.

The school will remain open as normal in the morning, when temperatures are expected to be lower. All children attending will be marked with an **authorised absence for the afternoon**.

Thank you for your understanding.

Kind regards,

Miss Buckland
Headteacher
